

# Dual Enrollment and End of Course Tests

Students who are dually enrolled in a post-secondary course are required to take the EOC. However, a student shall be exempt from taking the end-of-course assessment for a core subject course if he or she earns a post-secondary credit in that course through Dual Enrollment/Move On When Ready (MOWR) pursuant to O.C.G.A. 20-2-149.2 or 20-2-161.3. Postsecondary course grades earned, in this situation, shall be used in the state accountability system. This exemption does NOT apply to the following courses: Ninth Grade Literature and Composition, Algebra I, Coordinate Algebra, and Biology. All students enrolled in Ninth Literature and Composition, Algebra I, Coordinate Algebra, and Biology must take the EOC regardless of the course grade awarded by the post-secondary institution. Further, Geometry and Analytic Geometry are not allowable as Dual Enrollment/MOWR options; as a result students enrolled in these courses must take the EOC as well. The table below summarizes the courses and that are, and those that are not, eligible for this exemption:

Required of All Students	Allowed Exemption
9 <sup>th</sup> Grade Literature & Composition	American Literature & Composition
Coordinate Algebra / Algebra I	Physical Science
Analytic Geometry / Geometry	US History
Biology	Economics

Students who fail to earn post-secondary credit are not eligible for the exemption and must take the EOC at the time they re-enroll in the course at their high school.
